# Programme Outline

The best way to learn entrepreneurship is by doing it. Being successful in a business venture means owning a combination of skills that enable you to manage, adapt and innovate. We take a data-driven approach, drawing on research from across our unique network of UK start-ups to teach you how to think big, grow big and accomplish big challenges.

## Programme outcomes:

Evaluate the opportunity for your business idea and determine the ideal business model required to bring the idea to market

Identify your ideal target audience and develop a top-level marketing and communications strategy to launch your new product or service

Evaluate and put together your early stage management team and grow your network

Understand the key issues to be aware of when setting up your business in the UK and the roles and responsibilities for business owners

Gain a solid understanding of financial management for your business, learn the different ways to raise finance for your venture and how to negotiate with investors

Master the techniques of creating a successful pitch and secure investment

Apply your learning to real world situations through work experience

# Core Modules

This programme is designed for entrepreneurs who want to bring their innovative idea to life. Taught by successful UK entrepreneurs, it covers all aspects of growing your business, from building a team to finding advisors and exploring financing options. The programme includes an internship with one of the partner companies to gain hands on experience and learn the secrets to building a successful company – helping to accelerate your eligibility for the UK's business visa categories.

## Module 1
