The very first seeds of UIGUK, were sewn in London as early as 1992 through Howdra UK Limited. We then incorporated in the United Arab Emirates and wider GCC region in 2005, where we have successfully supplied household employees to the expatriate and local community. The Company then expanded in 2014 through the collaboration with United International Group (UIG) allowing us to enter a larger spectrum focusing on hospitality, retail services, real estate, construction, health care and many more.

30 years on, has seen us harvest our company to new international heights. The creation of UIGUK providing the UK labour supply in the same successful fashion, as we have been doing in the GCC.

Every client relationship with Lathro starts by establishing what the funding requirements for the client are and once that is done we work in close partnership with our clients to make sure the best possible solutions are identified, and then put in place.

The days of one size fits all for every funding requirement are gone as far as Lathro are concerned and with over 40 years experience in Financial Services that can be drawn on, and an in-depth knowledge of the wider financial services sector, we are perfectly placed to help our clients with achieving their future plans.

BUILD by UIG UK Construction LTD began in 1992 in London through Howdra UK Limited. Now, after 30 years, BUILD by UIG UK Construction LTD is reaching new international heights. It has brought its successful construction and maintenance services to the UK, reflecting its success in the GCC region. This demonstrates the company's commitment to excellence on a global scale.
